

NAIF ALDOSARI

Software Engineer

Riyadh, Saudi Arabia | +966 53 241 2702 | na2faldosari@gmail.com

Portfolio: na2faldosari.github.io | GitHub: github.com/na2faldosari | LinkedIn: linkedin.com/in/naif-aldosari

PROFESSIONAL SUMMARY

Software Engineer in the final year of a B.Sc. in Computer Science with hands-on experience building modern software across web, AI, and iOS. Experienced in delivering reliable, scalable applications through clean engineering practices and turning ideas into practical, user-focused products.

EDUCATION

Saudi Electronic University

Expected January 2027

B.Sc. in Computer Science, College of Computing and Informatics | Riyadh, Saudi Arabia

EXPERIENCE

Apple Developer Academy with Tuwaiq Academy

Jul 2025 – Aug 2025

AI Foundation Program Trainee, 1st Cohort | Riyadh, Saudi Arabia

- Selected as 1 of 66 trainees nationally, from thousands of applicants, for the program's inaugural cohort.
- Trained in artificial intelligence, product development, and design thinking, building iOS applications with Swift, SwiftUI, Core ML, and Create ML, and delivered the final solution to mentors and Apple representatives.

PROJECTS

Sawah — Cultural Tourism Platform

2026

Graduation Project | Vue 3, TypeScript, Pinia, Vite, NestJS, REST API

- Designed and built the bilingual Arabic/English RTL front end across three permission-separated portals — visitors book and pay, providers publish and manage schedules, administrators approve and handle refunds — with role-based navigation guards against a NestJS REST API.

Kafeet — Complaint-Response Compliance Tool

2026

Amad Hackathon 2026, Tuwaiq Academy with Alinma Bank | JavaScript, Node.js

Repository: github.com/na2faldosari/kafeet | Live demo: na2faldosari.github.io/kafeet

- Built a deterministic engine computing the SAMA-mandated complaint response deadline, a SHA-256 hash-chained audit log making any later edit detectable, and a server-side validator gating every model output.

Mulhem — iOS Application for Users with ADHD

2025

Apple AI Foundation Program | Swift, SwiftUI, REST API Integration

Repository: github.com/leen449/Mulhim

- Designed the UI/UX and integrated the language-model API for an app helping users turn a tangled thought into one actionable next step.

Arabic Sign Language Recognition

2026

SDAIA Program | Python, MediaPipe, OpenCV, Computer Vision

- Real-time system reading Arabic sign letters from a live camera using 21-point hand-landmark tracking. Contributed the custom Arabic text-rendering layer overcoming OpenCV's lack of native Arabic support.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, Swift, SQL, Object-Oriented Programming, Data Structures & Algorithms

Front-End: Vue 3, Vite, Pinia, HTML, CSS, Responsive Web Design, Single-Page Applications, RTL Engineering, Arabic Localization, Internationalization (i18n)

Back-End: Node.js, NestJS, REST APIs, API Integration, JSON, Git Version Control

Mobile & AI: Swift, SwiftUI, iOS, LLM APIs, Computer Vision, OpenCV, MediaPipe, Core ML

Practices: Agile, Scrum, Software Development Life Cycle (SDLC), UML, Technical Documentation, End-to-End Testing, Playwright, Git, GitHub

CERTIFICATIONS & LANGUAGES

- Apple AI Foundation Program, 1st Cohort — Apple Developer Academy with Tuwaiq (Aug 2025)
- Computer Vision for Developers — SDAIA, Saudi Data and AI Authority (Mar 2026)
- Artificial Intelligence Program — Samsung Innovation Campus with Misk (2026, in progress)

Languages: Arabic (Native) | English (Professional Working Proficiency, B2)
